## Overview

Agile management or agile project management is an interactive method for defining requisites and creating the corresponding output for projects, typically in domains characterized by a strong need for interaction and flexibility (e.g. infrastructure technology but not only).

The objective of the Agile Project Management Foundation course is to create an understanding of key components, principles and processes.

### Why Learn with 20/20?

As the largest independent provider of project management training in the UK, we are here to support and guide you through professional training. 20/20 care about your development as a project professional and will help you and your team achieve new qualifications. With a 98% pass rate for your APM accredited courses, you can trust 20/20 to deliver results.
